United Surgery Medical center is a new licensed ambulatory surgery center developed by Physicians to provide state-of-the-art surgical care in a comfortable and friendly environment.

Our goal is to blend Professionals and technology, ensuring the best quality medical expertise for patients and their families.

We have two operating rooms capable of general anesthesia and equipped with state-of-the-art equipment, for all your multi-specialty needs. Our recovery area can accommodate up to four patients at one time.

We take pride in NOT overbooking cases. At least 48hr notice is needed so that the doctors can give special care to their patients in an unrushed manner. We are a fully equipped and fully supplied surgery center that caters to your needs.

You are cordially invited to phone us to schedule a tour of our facility at your convenience. We are sure that you will be delighted and impressed by our surgery center.

Financial Services

Financial Information

As a courtesy to our patients, the Surgery Center provides verification of your insurance coverage and benefits, and may contact you for assistance. During the financial verification process, our representative may determine that a deposit and/or co-payment is required for the services you will receive at United Surgery Medical Center. If so, you will be asked to make the deposit or co-payment or before the day of the procedure.

To facilitate the payment or co-payments, we accept advance financial arrangements. We also offer assistance through the use of our Payment Plan, which our pre-admission representative may fully explain. For more information, please contact us at 323-726-0577.

Insurance and Billing

If you have health insurance, you will be ask to assign benefits to the United Surgery Medical Center and make deposits for amounts not payable by insurance. United Surgery Medical Center will bill your insurance carrier as a courtesy, although you are ultimately responsible for ensuring timely payment by your insurance carrier. If payment has not been received from your insurance carrier within 30 days of the billing date, we may contact you for assistance.

Physician Charges

United Surgery Medical Center's doctors are private practitioners and bill for their services separately. During your procedure your surgeon may consult other physicians (anesthesiologist, pathologist, radiologist and other specialist) about your care. They will review many of your test and work directly with your surgeon. While you may not meet them all, you may receive separate bills from them for their services.
